

LINE
DOLLIE

resistent - sustainable - inteligent

Developed to facilitate your business.

MODERN DESIGN

The intelligent design of the product offers practicality and agility when handling materials.

PRACTICAL AND ECOLOGICAL

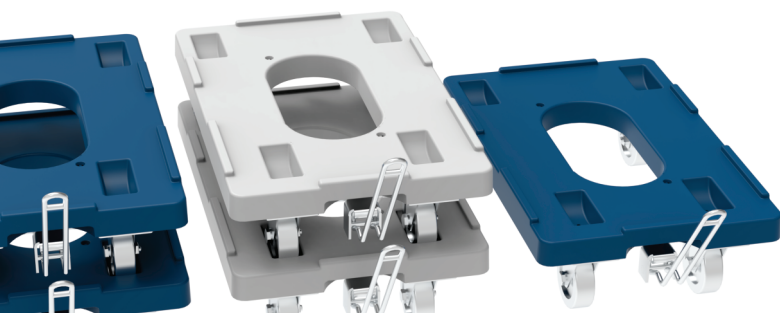

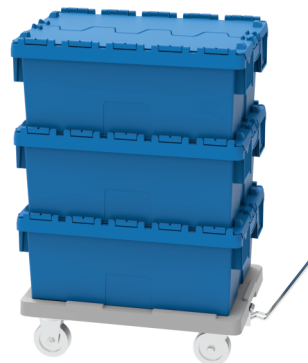

Produced in a sustainable way, the Dollie Line is an example of quality, safety and designed for greater resistance to impacts.

SAFE AND RESISTANT

With a reinforced bottom and polystyrene wheels, the product is resistant and supports daily activities with greater safety and ease.

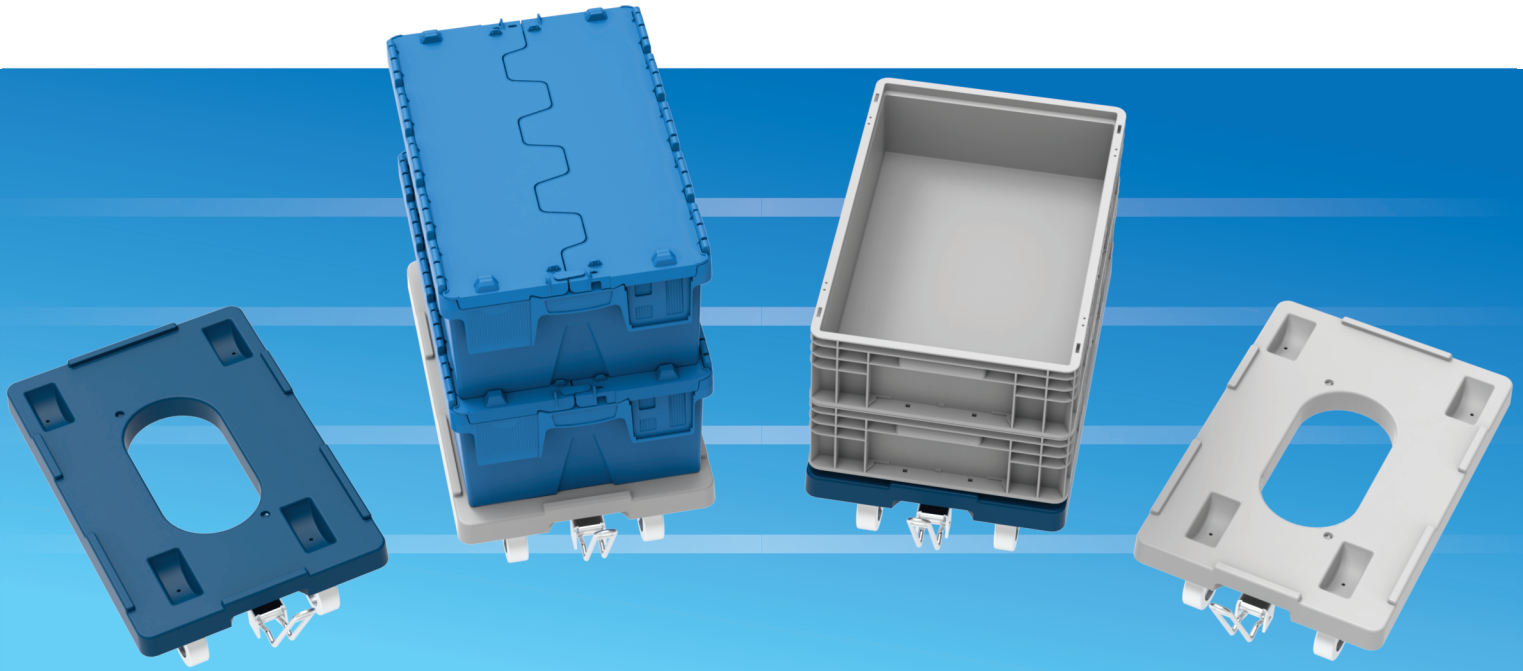

VERSATILE AND ROBUST

Intelligently developed, the Dollie supports up to 529,109 lbs of cargo and has optional hitch and rods that facilitate transport with minimal effort.

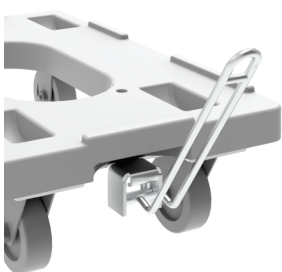

PRACTICALITY

Recognized for its quality, the Dollie is stackable and resistant to oil, impacts and temperature variations, offering convenience and agility during operations. It is ideal for transporting heavy boxes, streamlining the entire process by transporting several boxes at the same time with minimal effort.
