

PALLET LIGHT LINE

More versatility and quality.

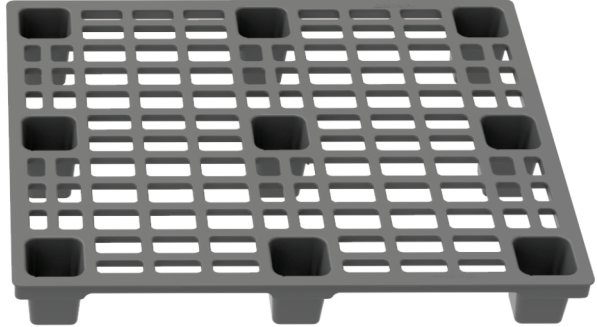

Pallets from the **Light line** have lightness as their main characteristic. They are suitable for export and, as they are produced in plastic, they eliminate the need for fumigation, in addition to offering a constant tare (weight) and free from contamination. Suitable for automated systems with rollers and edged and edgeless versions. Its great innovation is the possibility of coupling runners, making them even more versatile and allowing them to be placed on a pallet rack without losing their other characteristics.

WITH SAFETY EDGE

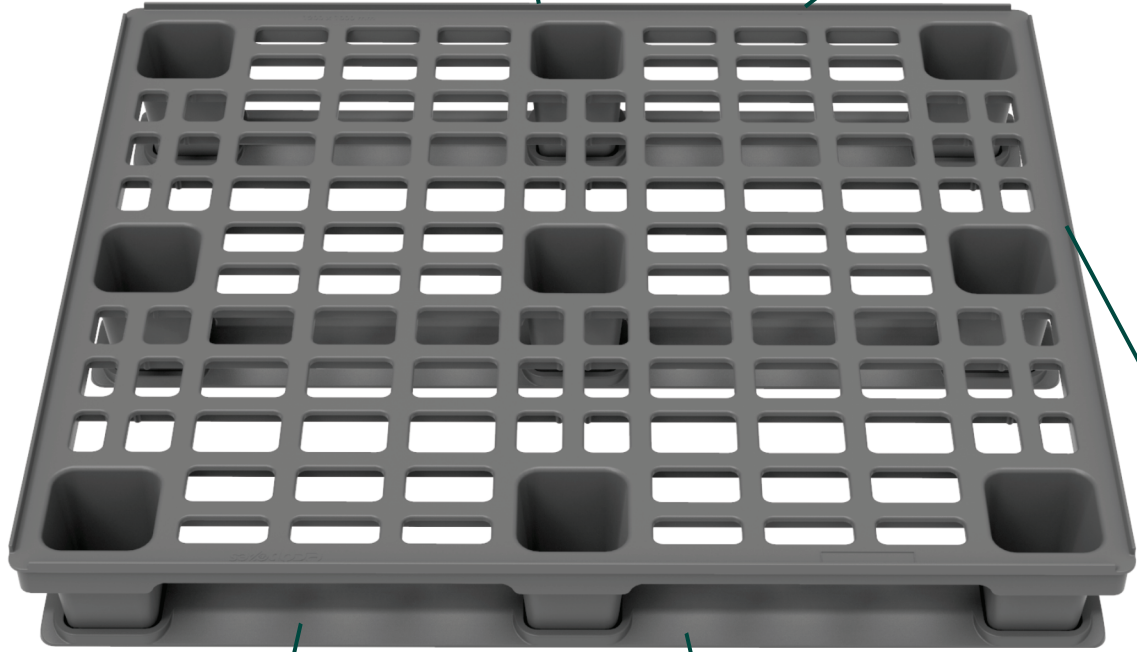

NO SAFETY EDGE

STATIC LOAD: 2204 lbs

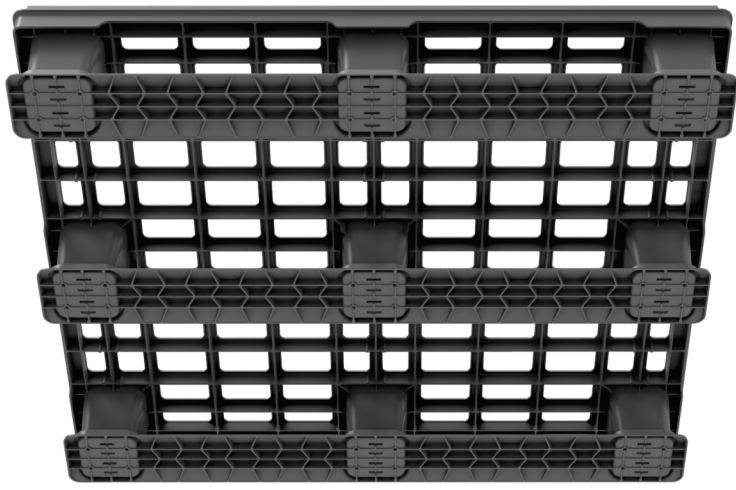

SAFETY EDGE

LIGHT

OPTIONAL SKIDS

VERSATILE STORAGE
Forklift entry from 4 sides

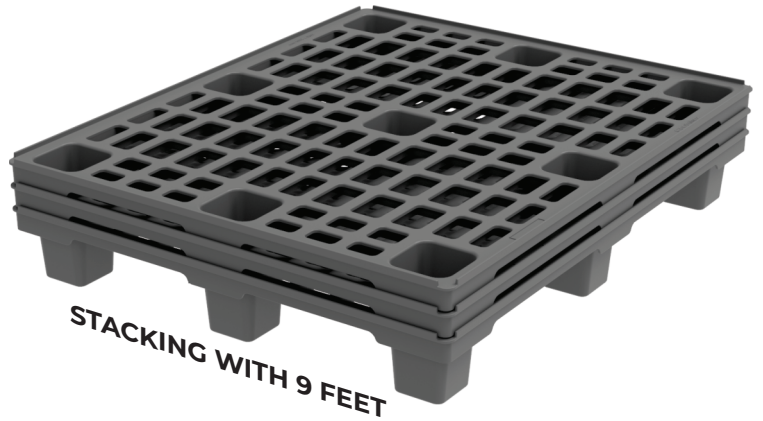

PALLET WITH 3 SKIDS

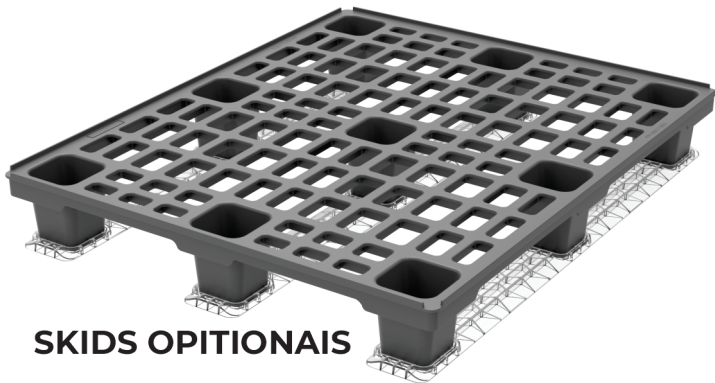

PALLET WITH 9 FEET

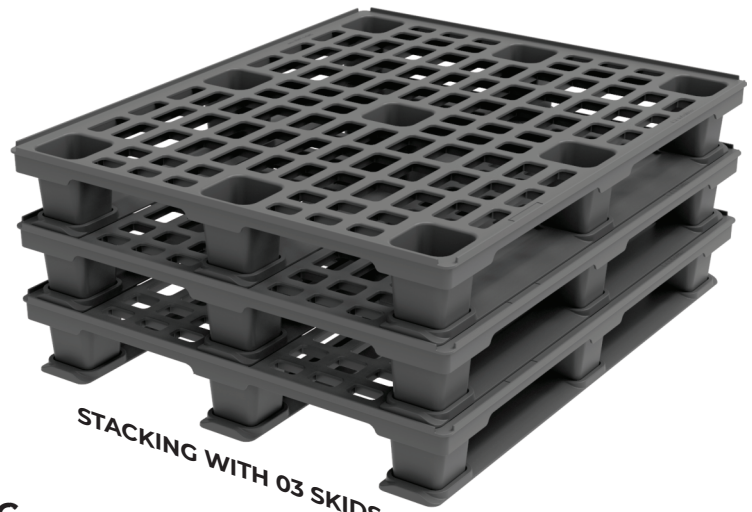

PALLET LID
(Optional)

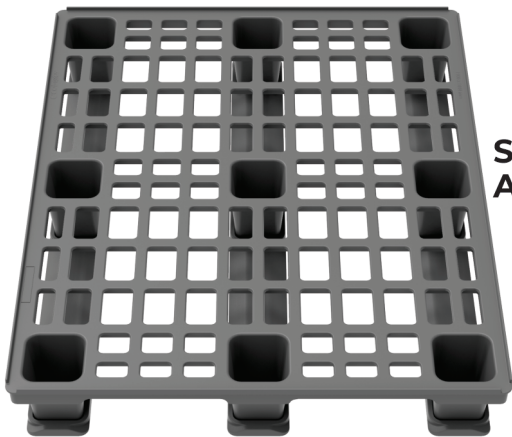

STACKING WITH 9 FEET

SKIDS OPITIONAIS

STACKING WITH 03 SKIDS

**SUPER LIGHT
AND HYGIENIC**

Resistant to impact, oil and temperature variations. No metal parts in the composition.
